ALU MEDIA STAND - DWR ONLY

Designer: Luciano Bertoncini
Materials: Aluminum; glass; silver melamine shelf.

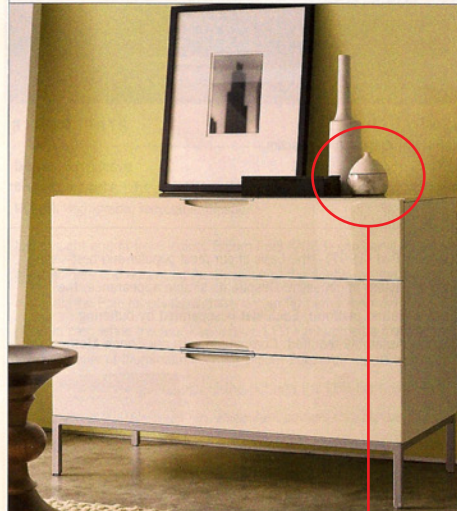

Functional, mobile and inconspicuous, the Alu Media Stand (2005) has been designed exclusively for DWR in response to numerous customer requests. Designed by Luciano Bertoncini, the cart is constructed of smooth-edged aluminum with an enduring powder-coat finish, while rounded corners make the design safe for homes with children and pets. The top surface is scaled to hold televisions as large as the best-selling 60" Sony Grand Wega™, and supports up to 250 lbs. A large lower glass shelf with a 50 lb capacity holds additional media equipment, including most DVD players, VCRs, subwoofers and video game systems. A cord outlet at the back provides neat cable management for multiple cords. Locking plastic casters (sold separately) allow the stand to be easily maneuvered for the perfect viewing angle and for easy access to the back of the TV. Assembly required. Made in Italy.

Alu Media Stand: BH7605 \$748
Casters (set of four): BH7889 \$100

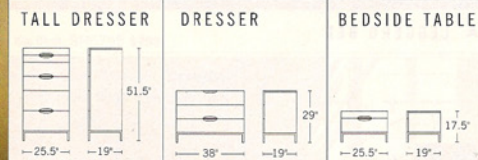

TOPISSIMO RUG BH6068 \$1798 | P19

LANDARE CASE GOODS

Designer: Abad Diseño
Materials: Solid wood; lacquer finish; powder coated steel base.

The Landare Case Goods (2004) from Spain merge the simplicity of modernist form with the kind of smooth, high-gloss lacquer finish perfected in ancient China. Built from solid wood, the case goods provide concealed storage for items both large and small. All drawers have silent vacuum closure. Powder-coated steel bases hold the designs aloft.

Made in Spain.
Landare Dresser: BH7788 \$1798
Landare Tall Dresser (see dwr.com): BH7793 \$2298
Landare Bedside Table (see dwr.com): BH7794 \$998
